TERM OF AGREEMENT

THIS AGREEMENT, shall become effective on the first day of **May, 2010**, between the MICHIGAN DISTRIBUTION CONTRACTORS ASSOCIATION of PO Box 66, Grand Ledge, Michigan, hereinafter called the Association, for and on behalf of its members and such other Distribution Contractors who execute an Acceptance of the Terms and Provisions of this Agreement, hereinafter called the Employer, Employers or Company, as party of the first part, and the INTERNATIONAL UNION OF OPERATING ENGINEERS, LOCAL No. 324, 324-A, 324-B, and 324-C, AFL-CIO, hereinafter called the Union, as party of the second part.

WITNESSETH:

That, WHEREAS, the parties hereto desire to stabilize employment in the Gas Distribution and Duct Installation Industry, by agreeing upon wage rates, hours and conditions of employment:

NOW, THEREFORE, the undersigned Association and Union in consideration of the mutual promises and covenants herein contained, agree as follows:

SECTION I Employer Representation

It is understood that the Association is acting only as an agent in the negotiation of this Agreement and that it is agent only for those individuals, partnerships, and corporations who have authorized it to so act, and in no event shall it be bound as principal or be held liable in any manner for any breach of this Agreement by any of the Employers for whom it is acting or any employee of such Employers. It is further agreed and understood that the liabilities of the Employers who have authorized the negotiation and execution of this Agreement are several and not joint.

SECTION II Coverage

A. Effective November 1, 1968, this Agreement shall apply to, and cover all Gas Distribution and Duct Installation work coming within the jurisdiction of the Union in the State of Michigan. The following six (6) counties, St. Clair, Macomb,

Oakland, Wayne, Monroe, and Washtenaw shall be known as Area 1, and the remainder of the State of Michigan, including the Upper Peninsula shall be known as Area 2; and such work is more fully described to cover the construction, installation, treating and reconditioning of pipelines transporting gas vapors within cities, towns, subdivisions, suburban areas, or within private property boundaries, up to and including private meter settings of private industrial, governmental or other premises, more commonly referred to as Distribution Work, starting from the first metering station, connection, similar or related facility, of the main or cross country pipeline and including duct installation.

B. See Schematic-Separation drawing of mainline, distribution and building trades attached to this contract and considered an integral part of this contract.

C. If and when the Employer shall perform work covered by this Agreement under its own name, under the name of another employer, as a corporation, company, partnership, enterprise, or any combination thereof, including a joint venture, this Agreement shall be applicable to all such work performed under the name of the Employer or under the name of any other corporation, company or combinations or joint venture.

SECTION III Jurisdiction

A. The jurisdiction of the Union is recognized by the Employers to be the operation of all power driven or power generating construction equipment used in the construction and installation of gas distribution lines and pipes, including duct.

B. The Employer hereby recognizes and acknowledges that the Union is the exclusive representative of all employees in the classifications of work covered in Section XVI of this Agreement for the purpose of collective bargaining; and to assign such type of work to Operating Engineers, Mechanics, Oilers and Apprentice Engineers rather than any other skilled trade group.

SECTION IV Recognition

It is agreed that as a condition of employment all present and future employees covered by this Agreement shall become members of the Union after the seventh (7th) day following the beginning of their employment or the effective date of this

Agreement, whichever is later. It is agreed that Membership in good standing shall mean only the payment of those periodic dues and fees germane to collective bargaining, contract administration, and grievance adjustment. The failure of any employee covered by this Agreement to make application to and become and remain a member of the Union within the period of time herein indicated shall obligate the Employer of such employee, upon written notice from a Union official to such effect and to the further effect that Union membership was and is available to such employee on the same terms and conditions as it is available to other applicants for membership, to forthwith discharge such employee.

SECTION V

Hiring Procedure

A. The Employer recognizes the Union as a valuable source of experienced employees and shall call the Union for employees. It is agreed that the Employers may recall any employee who has worked for said Employers in the past, provided either the Employer or the employee reports such engagement of employment to the Union Hall in that area.

B. It is agreed that all employees shall be selected on a nondiscriminatory basis.

C. It is also agreed that when the Union cannot furnish a qualified employee within forty-eight (48) hours, the Employer may then ask for a qualified Apprentice Engineer to be employed as a trainee for such Employer. If the Union fails to furnish a qualified Apprentice Engineer, then the Employer may seek an employee elsewhere. The Employer shall, upon request, notify the Union as to the date of original employment of any employee covered by this Agreement. If a non-member is hired, he shall make application for membership in the Union in accordance with Section IV of this Agreement.

SECTION VI

Check-off of Initiation Fees

The Employers agree to honor, upon presentation by the Union, all assignments for initiation fees, which have been properly signed by an employee, and to deduct the amount stated thereon from the wages earned by that employee and to pay the amount so deducted to the Union; provided however, that this Section shall apply only to those assignments which are not irrevocable for longer than one (1) year or until this Agreement expires, whichever occurs sooner, and to those assignments,

which in addition, provide that they shall automatically renew themselves for successive yearly or applicable Agreement periods thereafter, whichever is the lesser, and which further provide that the employee may revoke said assignment by giving written notice thereof to the Employer and the Union at least sixty (60) days and not more than seventy-five (75) days before any periodic renewal date.

SECTION VII Stewards

The Employer recognizes the right of the Union to select a working Steward from among the members of the Union in accordance with Union procedure. The Stewards activities shall be confined to the area in which work is performed by his Employer. The Steward shall be permitted sufficient time to perform his usual Steward duties with the least interference to the job. It is agreed and understood that such Steward shall not receive any extra compensation above his regular wages. It is further agreed and understood that the selection of a Steward shall not increase the number of Engineers necessary to man the job. A Steward shall be required to do a days work and shall be subject to the same rules as any other employee. The Steward shall be one of the last two (2) employees to be laid off the job when the job is finishing up, providing he is capable of performing the required work. The Steward shall not be discriminated against in any manner including assignment of work and overtime, because of his Union Representation position.

SECTION VIII Union Representatives Permitted on Jobs

The authorized Representatives of the Union may visit jobs during working hours, but must not hinder or interfere with the progress of the work. The Employers shall, upon request by the Union Representative, inform the Union of the exact locations of their jobs.

SECTION IX Job Safety

The Union and Employer agree to require its members to live up to the Construction Safety Laws as provided by the State of Michigan, including the use of hard hats.

SECTION X
General Provisions

A. The Employer shall not be hindered or prevented in using any type or quantity of tools or appliances and may secure materials or equipment from any market or source without interference of any kind.

B. The Union recognizes that the Employer shall have sole jurisdiction of the management and operation of its business, the direction of its working force, the right to maintain efficiency on its jobs and the right to discharge Employees for just cause.

C. This Agreement covers the entire understanding between the parties hereto. No oral rule, regulation or understanding which is not set forth herein will be of any force or effect upon the parties hereto. Any change or addition to this Agreement must be agreed to in writing by both parties to this Agreement and must be made, and shall become a part of this Agreement by reference thereto.

D. Employees shall not be penalized by Employers for defending and upholding the working rules and terms of this Agreement; nor shall an employee be discharged or penalized for refusing to cross a primary, legally authorized picket line.

SECTION XI
Equal Employment Opportunity

The parties agree that there shall be no discrimination against any employee for employment for any reason of race, color, religion or national origin.

SECTION XII
Subcontracting

The Employer expressly agrees that in the event he subcontracts any work covered by this Agreement, to be performed on the job site, he will not so subcontract with any subcontractor unless the subcontractor agrees that in the performance of the work he will comply with all the rates, terms and conditions of this Agreement, except Section IV of this Agreement.

SECTION XIII Classifications

A. All employees employed under this Agreement shall be classified in accordance with the classifications set forth in Section XVI of this Agreement.

B. In the operation, care and maintenance of pumps under six inches (6) capacity, air compressor, concrete mixers under half (1/2) yard capacity, rodding machines and other small equipment, an Engineer shall be employed at the appropriate rate as shown for that classification in Section XVI to operate said equipment. The Union shall place no limitations upon the amount of work which an Engineer shall perform, or the types of equipment to which he is assigned. It is the intention of the parties hereto that there shall be no abuse by either party of the intent of this paragraph, nor, require the Employer to hire an employee exclusively for the performance of the work as referred to in this paragraph.

C. If new or unclassified equipment or machinery, which comes within the jurisdiction of the Union, is used by an Employer, the Employer will fix a temporary rate, which rate shall be within one (1) of the rates and classifications specified in this Agreement and shall be based upon a comparison with the rate paid for other more nearly comparable classifications specified in this Agreement. Thereafter, the designated Representatives of the Union and the Association shall meet within ten (10) days after written request by the Union to the Association to negotiate a permanent rate. If agreement cannot be reached between the Association and the Union within twenty (20) days after commencement of negotiations thereon, the establishment of a permanent rate may be submitted to arbitration in accordance with Section XXXVIII of this Agreement at the request of either the Association or the Union, provided however, that any permanent rate established shall be within one of the rates and classifications specified in this Agreement and shall be based upon a comparison with the rate for other more nearly comparable classifications specified in this Agreement.

3. In the case of an Employer without an established payroll in the local area, the average number of Operating Engineers to be employed will be estimated by the Employer subject to the approval of the Fund Committee.

SECTION XXXVIII **Arbitration**

(a) A grievance is an alleged breach, misinterpretation or misapplication of the terms of this Agreement. During the life of this agreement the Employer shall not engage in any lockout and the Union and the Employees shall not cause, participate in or approve any strike or work stoppage of any sort.

(b) Settlement of grievances may be arrived at in any step of the grievance procedure which will be final and binding on the Union, the Employer and the Employee.

(c) Any grievance must be presented (verbally or in writing) within three (3) working days of the time the aggrieved party first becomes aware, or should have become aware, of a claim subject to the grievance. A "working day" shall not include Saturdays, Sundays or Holidays.

(d) Grievances shall be handled in the following manner:

Step 1. Between the Employer's supervisor and a representative of the Union on the job site.

Step 2. Within ten (10) working days following completion of Step 1, an unresolved grievance shall be reduced to writing. The written grievance shall be submitted to a Union Business Representative and the Employer's Representative at the job site. The grievance shall set forth the time the grievance arose and the facts upon which the grievance is based.

Step 3. Within five (5) working days following completion of Step 2, an unresolved grievance shall be submitted to the Business Manager and the Representative of the Employer.

Step 4. Within five (5) working days following completion of Step 3, an unresolved grievance shall be submitted to the Joint Grievance Board. The refusal or failure by any party, the Employer, Employee and the Union, to schedule or attend a Joint Grievance Board meeting shall constitute waiver of all prior irregularities in the grievance procedure, and the complainant may proceed directly to arbitration. If the complainant prevails in the arbitration over such party, that party shall pay all costs of arbitration, excluding attorney fees. If the complainant does not prevail, each party will pay its own cost, except the arbitrator's fee shall be shared equally.

Step 5. If the Joint Grievance Board deadlocks regarding any grievance, it shall constitute a basis for submittal of the grievance to the National Center for Dispute Settlement. In such instances, the parties to the grievance shall appoint an arbitrator to review the dispute and render a decision. If the parties are unable to agree upon an arbitrator, the National Center for Dispute Settlement shall make the designation. The arbitrator's fee shall be shared equally by the Employer and the Union. The arbitrator shall confine his decision to the dispute in question and shall not have authority to add to, subtract from, or in any way modify the terms of this Agreement. The arbitrator's decision shall be final and binding on the Employer and the Union, and the Employee(s) involved.

(e) It is expressly agreed and understood that violation of payment of rates, of pay,

overtime work, Holiday and Vacation Fund, Security Deposit, Health Care and Pension Funds, Labor Management Education Committee, Retiree Benefit Fund, Apprenticeship and Journeyman Retraining Fund or Industry Advancement Funds (if applicable) contributions, as provided in this Agreement shall not be considered as subject to arbitration, provided the Union gives seventy-two (72) hours written or telegraphic notice to the Association and the Employer concerned prior to taking economic action for violation of payment as provided for in this Agreement.

(f) Wage and overtime claims will not be considered after thirty (30) days following the pay period for which said claims are made.
